Re: Testimonial

"Clear Decisions were engaged to facilitate our Executive sessions and assist us in developing our strategic plan. The end result is a strategic plan that we are extremely proud of. The facilitator came from an unbiased perspective. She challenged us, encouraged us to visualize the future, make an assessment of today, describe our goals and objectives, set our measurements, take action and finally encouraged us to make strategy a habit. I am very happy to recommend clear decisions to other businesses looking for a strategic facilitator, coach or planner."

Yours sincerely
